

What should be the strategy to prepare for the JEE (Advanced) now after the JEE (Main)?

This is the list of things which can help you to score better in Jee Advanced.

1. Stop using Facebook or any other social media completely.
2. Switch off your phone while study. Avoid unnecessary talk, But talk to your parents and one or two good friends.
3. Don't reduce your sleeping hours. 6 to 7 hours of sleep is necessary. Less sleep can affect your memory, concentration and your ability to solve difficult problems.
4. Study with Promo Doro technique, or give yourself some break for each half hour of study. It will maintain your concentration level and energy.
5. Solve sheet provided by the Institute every day and revise thoroughly, solve the paper within the marked time. Assess yourself and make some points where you were lagging. This will help you to keep your weaknesses in view.
6. Specially in mathematics, you must have all the basic formulae in your random memory so that you can apply it very quickly while solving a difficult problem.
7. The last one: Focus on your work only and never think of the result that weather I get success or not. Try to make your next day better than the previous one.
